Take A  
**LOOK**

*P-16 is about people and connections. It is about the reality that we have always had the resources in our own states and communities to insure the future.* (Page 89)

*P-16s, both at the local and at the state level, are necessary for the entire system to operate and be successful.* (Page 99)

*This is why many efforts wither and some die. The dualism has seldom been understood.* (Page 99)
